

Predocctoral RA position, starting 2023

Matthew Backus and Cailin Slattery are recruiting a predoctoral research assistant to start work in the Summer of 2023. The position will continue for one to two years, and is located in Berkeley, CA with a salary range of \$67,000-\$70,000.

The position is ideal for someone with a serious interest in economics research and an intention to apply to graduate school in economics or a related field. For examples of research topics that you might work on, please see the websites of Matthew, [here](#), and Cailin, [here](#).

Successful candidates have strong communication skills, coding experience, and mathematical training. Candidates from non-traditional backgrounds are especially encouraged to apply; all factors will be considered in evaluating applications.

In your cover letter, please be sure to include the following:

- Your career goals and interest in economics.
- The date you are able to start work.
- A brief summary of your training in mathematics, computer science, and economics.
- Your experience with statistical and programming languages.
- Your experience as a research assistant and with independent research.
- Names, e-mail addresses, and phone numbers of 2 references.

When you are ready to apply, please find the job listing [here](#).
